INFORMATION BULLETIN 98-21

TO: Consultants

FROM: Engineering Consultants Section *Row*

SUBJECT: SR 68 Design Build Project Between Bullhead City and Golden Valley

The purpose of this memo is to advise everyone of the upcoming Design Build Project for SR 68 between Bullhead City and Golden Valley. (MP 1 to MP 16 on SR 68) The ADOT Core Team has met in a two day partnering workshop developing a planning process and a project schedule. We are sure you are in the preliminary development of establishing a design build team and are eager to begin researching the project. Be advised that the Bureau of Land Management – Kingman Office (BLM) has requested that you do not contact any of their personnel. A BLM coordinator will be identified at a later date.

We will be scheduling an informational sharing meeting in mid January to provide you and the contractors information regarding the project specifics. In addition we will ask you for input and feed back on past design-build projects so that we can improve our process – we want to make this project a success for the consulting industry, contracting industry and ADOT. We also ask that you refrain from asking questions to the ADOT staff until that date.

In the near future, we will be advertising for a SR 68 Design Build General Consultant to assist the ADOT project manager in the day to day operation. We would like the firm under contract by December 1, 1998.

If you have questions regarding this bulletin, please call Ron Thomas at (602) 255-7525.
